Page/Pág.

Artificial Intelligence

Neural Networks and Genetic Algorithms

Recent Developments in Lattice Neural Networks..... 1
Gerhard X. Ritter, Gonzalo Urcid

MIMO Discrete Nonlinear Adaptive NN Control using a Learning Algorithm
Based on Kalman Filtering 13
Edgar N. Sanchez, Alma Y. Alanis

Neural Networks and next generation wireless amplifiers25
Georgina Stegmayer

A Memory and Search Hybrid Genetic Algorithm for non-Stationary
Environments with Repetitive Natures 35
David B. Bracewell, Fuji Ren

Intelligent Agents

Delegate: Analyze, Deputize, and Supervise.....47
Eva Cogan, Simon Parsons

Distributed Problem-Solving In MAS : A Novel Generalized Particle Model..... 61
Dianxun Shuai, Xing Wang, Rui Gong, Rongrong Liu

Logical Reasoning

Efficient Revision of Propositional Knowledge Bases 69
Guillermo De Ita, Carlos Guillén, A. López-López

Applying Mutation Testing in Prolog Programs..... 81
Juliano R. Toaldo, Silvia R. Vergilio

Computer Vision and Pattern Recognition

Input Data Preprocessing with Anisotropic Whitening Transformations..... 93
*Fulgencio S. Buendía Buendía, Benjamin Ojeda Magaña, Antonio
Vega-Corona, Diego Andina*

Eyes Detection and Tracking Based on Face Segmentation..... 99
Xiaoyi Feng, Zhi Dang, Matti Pietikäinen, Abdenour Hadid

Three-dimensional reconstruction of textured parallelepipeds from digital video ... 107
Israel Vite Silva, Luis Gerardo de la Fraga

Impulsive Noise Suppression by use Robust Linear Combinations of Order Statistics.....	117
--	-----

José Luis Varela-Benítez, Francisco Gallegos-Funes, Volodymyr Ponomaryov

Real-Time Speckle and Impulsive Noise Reduction in 3-D Ultrasound Imaging based on Order Statistics	125
---	-----

Francisco J. Gallegos-Funes, Volodymyr I. Ponomaryov

Natural Language Processing

Predicting Obligation Dialogue Acts from Prosodic and Speaker Information.....	137
--	-----

Sergio R. Coria, Luis A. Pineda

Criteria of Word Connectivity Evaluations by means of the Web.....	149
--	-----

Igor A. Bolshakov, Vicente Cubells

Combining Keyword Identification Techniques.....	157
--	-----

Mireya Tovar, Maya Carrillo, David Pinto, Héctor Jiménez-Salazar

Unsupervised Term Selection using Entropy	163
---	-----

Héctor Jiménez-Salazar, Mauricio Castro, Franco Rojas, Ernesto Miñón, David Pinto, Helena F. Carcedo

Linguist's Intelligent Workplace for Spanish Language	173
---	-----

Grigori Sidorov

Using WordNet to Improve Information Retrieval Accuracy.....	179
--	-----

Yenory Rojas, Antonio Ferrández, Jose Navarro

Classification

Minkowski's Metrics-Based k-NN Classifier Algorithm: A Comparative Study	191
--	-----

Rolando Flores Carapia, Cornelio Yáñez Márquez

Computer Science

Database Technologies

Data Warehousing: A Methodology for the Construction of Stores of Information	203
---	-----

Leopoldo Galindo Soria, Oscar Camacho Nieto

BP4LWS Document Management with an Active Deductive XML Database	211
--	-----

Jose Oscar Olmedo-Aguirre, Giner Alor-Hernandez, Juan Miguel Gomez

Optimizing data search and retrieval in a semistructured database system	221
--	-----

Amparo López Gaona, Andrés López Capistrán

A Storage Manager for Semistructured Databases	229
--	-----

Amparo López Gaona, Egar Arturo García Cárdenas

Software Engineering

- A Formal Foundation for Aspect Oriented Software Development241
Jorge Fox
- Visual Programming Environment for ECA Rules.....253
Mónica Rivera de la Rosa, Oscar Olmedo Aguirre
- Using Design Patterns to Build Web-Based 3D-Collaborative Virtual Environments.....265
Chadwick Carreto, Rolando Menchaca, Leandro Balladares, Rolando Quintero
- Improving the Capacity of Software Acquisition Management: An Alternative Methodology.....277
Jose Calvo-Manzano, Gonzalo Cuevas, Iván García, Gerzon Gómez, Tomas San Feliu, Ariel Serrano

Security

- Proposal of Model and Message Format for Sharing Information between CSIRTs and IDSs.....285
Fernando A. Pestana Júnior, Zair Abdelouahab, Edson Nascimento

Geoprocessing

- Spatial Semantic Definition to Generate a Semantic Description for Spatial Data.....297
M. Torres, R. Quintero, M. Moreno, G. Guzmán
- Distributed GIS Environment to Detect Geomorphometric Characteristics in Geo-Images.....311
M. Moreno, S. Levachkine, M. Torres, R. Quintero, G. Guzman

Bioinformatics

- Prediction of Exonic and Intronic Regions with Variants of Coding Measures Based on Kasiski Method323
Laura Cruz, Héctor Fraire, Yolanda González, Javier González, Manuel Aguilar, Alejandro Macías

Distance Education

- Using Semantic Web in Web-Based Education.....335
R. Peredo Valderrama, Agustín Gutiérrez T., L. Balladares Ocaña

Automatic Control

- Fuzzy Model Based Predictive Control of Nonlinear Systems.....343
Salima Djebrani, Foudil Abdessemed
- A prototype of a new staircase climbing wheelchair353
R. Morales, V. Feliu, A. González, P. Pintado

Toolbox for real time control task design using Matlab/Simulink.....	369
<i>Roberto M. Linares Zamora, Pedro Mejía Álvarez, Alberto Soria López</i>	

Digital Signal Processing

Acoustic parameters database of vocal characterization for study of auditory pathologies.....	381
<i>Ma. Julia Calderon Sambarino Sergio Suárez Guerra</i>	

Author Index.....	391
-------------------	-----
