Economy, Commerce and Education

Selection of Segments to be Sourced from Low Cost Countries for a Global Industrial Equipment Manufacturer based on a Multi-Attribute Decision Support System.....	3
<i>Antonio Jiménez, Luis C. Rodríguez, Alfonso Mateos and Sixto Ríos-Insua</i>	
Decision Support Systems for Portfolio Optimization.....	13
<i>María A. Osorio-Lama and Abraham Sánchez-López</i>	
Location-based Support for Commerce using Multiagent Negotiation	23
<i>Ramon Brena, Luis Marcelo Fernández, Jesús Héctor Domínguez and José Luis Aguirre</i>	
Ontologies for Student and Domain Models in Adaptive and Collaborative Learning System.....	33
<i>José M. Gascueña, Antonio Fernández-Caballero and Pascual González</i>	

Information Systems and Data Mining

Shallow Parsing and Information Extraction	45
<i>Diego Uribe</i>	
Identifying Information from Heterogeneous and Distributed Information Sources for Recommender Systems.....	55
<i>Silvana Vanesa Aciar , Josefina López Herrera and Josep Lluís de la Rosa</i>	
Model Selection in Data Mining: A Statistical Approach.....	65
<i>Jose A. Frydman P., Francisco J. Cantú Ortiz, Jorge H. Sierra Cavazos and Rubén Morales-Menéndez</i>	

Use of an ANFIS Network for Relative Humidity Behaviour Modelling on the South Region of Jalisco, México.	75
<i>Marco Gamboa, Marco Castro and Francisco Herrera</i>	

Information Security and Infrastructure

Multi-Agent System Design Based on Security Policies	87
<i>Zeus Andrade Zaldívar, Ma. De los Ángeles Junco Rey, Jorge Adolfo Ramírez Uresti, José Arturo Tejeda Gómez and Enrique David Espinosa Carrillo</i>	
An Artificial Manager for Security Policies in Organizations	97
<i>Karen García, Raúl Monroy and Jesús Vázquez</i>	
A service-oriented approach for integrating multiagent systems with web-services in a collaboration application	107
<i>Eduardo H. Ramirez and Ramon F. Brena</i>	

Anti-Spam Filtering and Email Virus Detection

A Collaborative Learning Method For Spam Filtering	119
<i>Hsiu-Sen Chiang, Jui-Chi Shen, Dong-Her Shih and Chia-Shyang Lin</i>	
Analyzing the Impact of Corpus Preprocessing on Anti-Spam Filtering Software	129
<i>J. R. Méndez, E. L. Iglesias, F. Fdez-Riverola, F. Díaz and J.M. Corchado</i>	
Misuse Detection of Email Viruses base on SOM with k-medoids	139
<i>Dong-Her Shih, Sheng-Fei Hsu, Hsiu-Sen Chiang and Chun-Pin Chang</i>	

Image Processing and Human-Computer Interaction

A Statistical Learning-Based Method for Color Correction of Underwater Images	151
<i>Luz Abril Torres-Méndez and Gregory Dudek</i>	
Recognition of Shorthand Writing using Neural Networks	161
<i>Diana M. Vázquez, Karla L. Segovia and Roberto A. Vázquez</i>	

Data Compression

Data Compression Using a Dictionary of Patterns.....	173
<i>Angel Kuri and Jose Galaviz</i>	
MSIM: A Pattern Based Lossless Data Compressor.....	183
<i>Angel Kuri-Morales and Oscar Herrera-Alcántara</i>	
Practical Estimation of Kolmogorov Complexity using Highly Efficient Compression Algorithms.....	193
<i>Angel Kuri-Morales, Oscar Herrera, José Galaviz and Martha Ortiz-Posadas.</i>	

Robotics

Steering Control of an Ackerman Mobile Robot Using Fuzzy Logic	205
<i>Enrique Alarcon-Avila, Stivalis Anahi Martinez-Cuevas and Alejandro Rangel-Huerta</i>	
Evolving Robot Behavior for Centralized Action Selection	213
<i>Fernando Montes González and José Santos Reyes</i>	
Formations in Collective Robotics	223
<i>Yazid León Fernández de Lara and Angélica Muñoz Meléndez</i>	
MINI-TRANS: A Multi-robot System with Self-assembling Capabilities.....	233
<i>María Guadalupe Jiménez Velasco and Angélica Muñoz Meléndez</i>	
Biofeedback Agents for Electromyocontrolled teleoperated Robots ..	243
<i>Sandra Diaz, Carlos Nieto, Marissa Diaz and Ricardo Swain</i>	

Route Planning

Extending and applying PP language: An answer set planning problem language	255
<i>Claudia Zepeda, Mauricio Osorio, Christine Solnon and David Sol</i>	
Planning motion for animated characters.....	265
<i>Abraham Sánchez López, Josué Sánchez Taxis and René Zapata</i>
