Semantics	
A Language Independent Approach for Recognizing Textual Entailment	3
<i>Adrian Iftene and Alexandra Balahur-Dobrescu</i>	
Summarization by Logic Segmentation and Text Entailment	15
<i>Doina Tatar, Emma Tamaianu-Morita, Andreea Mihis and Dana Lupsa</i>	
TIL as the Logic of Communication in a Multi-Agent System	27
<i>Marie Duži</i>	
Parsing and Part of Speech Tagging	
Collins-LA: Collins' Head-Driven Model with Latent Annotation	43
<i>Seung-Hoon Na, Meixun Jin, In-Su Kang and Jong-Hyeok Lee</i>	
Study on Architectures for Chinese POS Tagging and Parsing	55
<i>Hailong Cao, Yujie Zhang and Hitoshi Isahara</i>	
Maximum Entropy Based Bengali Part of Speech Tagging	67
<i>Asif Ekbal, Rejwanul Haque and Sivaji Bandyopadhyay</i>	
Morphology and Word Segmentation	
A Two-Pass Search Algorithm for Thai Morphological Analysis	81
<i>Canasai Kruengkrai and Hitoshi Isahara</i>	
Exploiting Unlabeled Text with Different Unsupervised Segmentation Criteria for Chinese Word Segmentation	93
<i>Hai Zhao and Chunyu Kit</i>	
Word Sense Disambiguation	
Defining Relative Strengths of Classifiers at Randomly Generated Datasets	107
<i>Harri M.T. Saarikoski</i>	
Machine Translation	
Features and Categories Design for the English-Russian Transfer Model	123
<i>Elena Kozerenko</i>	
Translation of the Light Verb Constructions in Japanese-Chinese Machine Translation	139
<i>Yiou Wang and Takashi Ikeda</i>	
Shahmukhi to Gurmukhi Transliteration System: A Corpus based Approach	151
<i>Tejinder Singh Saini and Gurpreet Singh Lehal</i>	

Vector based Approaches to Semantic Similarity Measures	163
<i>Juan M. Huerta</i>	

Information Retrieval and Question Answering

Comparing and Combining Methods for Automatic Query Expansion.....	177
<i>José R. Pérez-Agüera and Lourdes Araujo</i>	
Meta-Search Utilizing Evolutionary Recommendation: A Web Search Architecture Proposal	189
<i>Dušan Húsek, Keyhanipour, Pavel Krömer, Behzad Moshiri, Suhail Owais and Václav Snášel</i>	
Structuring Job Search via Local Grammars	201
<i>Sandra Bsiri, Michaela Geierhos and Christoph Ringlstetter</i>	
ExpLSA: An Approach Based on Syntactic Knowledge in Order to Improve LSA for a Conceptual Classification Task.....	213
<i>Nicolas Béchet, Mathieu Roche and Jacques Chauché</i>	
Gathering Definition Answers by Information Gain	225
<i>Carmen Martínez-Gil and A. López-López</i>	

Human-Computer Interfaces

Improving Word-Based Predictive Text Entry with Transformation-Based Learning	237
<i>David J. Brooks and Mark G. Lee</i>
